Course Outline The course comprises a mixture of input sessions, group exercises and examination based practical work. All delegates are encouraged to actively participate during the practical sessions to gain the full benefit during the training. During the course, delegates will undertake a number of mock examinations and gain feedback on the progress towards eventual success. To prepare effectively for the PRINCE2™ Foundation and Practitioner exams, delegates should be prepared to undertake revision and exam preparation work in the evening.

Certification Foundation:
This course prepares the participant for the official PRINCE2™ Foundation Exam (paper-based). Participants who take the exam are prepared extensively through test exams and instructor feedback. The exam is a 75 question multiple choice, closed book exam over 60 minutes as developed by APMG. Participants will receive the certificate after answering at least 38 questions correctly.

Practitioner:
The purpose of the PRINCE2 Practitioner exam paper is to test a delegate's ability to apply the method. From September 2007 the PRINCE2 Practitioner exam changed from an open-ended essay style format to a multiple choice ("OTE" - Objective Testing Exam) format. The change from open-ended essay style format to multiple choice may seem to make the PRINCE2 Practitioner exam easier. However a broad knowledge is still required to pass this exam and initial feedback confirms that the exam is very much at the same level as the previous format.

The new PRINCE2 Practitioner exam format

- 9 questions, with a scenario background and appendices.
- Each of the 9 questions is worth 40 marks.
- An overall score of 180 out of a possible 360 is required to pass.
- Three hour duration. • Open-book examination (only the PRINCE2 Manual is allowed)
